### **Tiuta bolsters underwriting department**

Tiuta has bolstered its underwriting team to deal with increased market demand and ensure that the speed and efficiency of its service standards continue to be of the highest order.

The enhancement of the underwriting department signifies Tiuta's sustained commitment to the intermediary market and marks the continuation of its ambitious specialist lending growth plans.

The appointments consist of Ian Rennie and Nicky Peeling. Ian joins Tiuta with over 10 years experience in financial services working within both an underwriting and sales capacity. He has previously worked for Halifax where he was underwriting mortgage applications and more recently worked as a mortgage consultant for Countrywide Mortgage Services within the Mann Kent estate agency subsidiary.

Nicky has vast experience within the intermediary market after undertaking BDM and roving underwriting roles within Preferred Mortgages; Commercial First and Link Lending respectively.

#### **George Patellis, CEO at Tiuta, commented:**

"These important additions to our underwriting team reflect both the growth within the business and the strength of the infrastructure within our sales support which

is vital when working within the demands of the short term finance arena. We're delighted to welcome such highly skilled candidates who will help strengthen the speed and efficiency of our existing team even further."
